The Commonwealth Bureau of Pastures and Field Crops is one of 10 Bureaux and 4 Institutes which together form the Commonwealth Agricultural Bureaux, an organization sponsored by Commonwealth governments for the dissemination of information on agricultural research.

Weed Abstracts is a monthly journal prepared by the Bureau and published by the Commonwealth Agricultural Bureaux.

Annual Subscription Rate

To subscribers in countries that are not members of CAB £102.00

The journal is available at a special rate to subscribers in countries which make a financial contribution to CAB (these countries are listed on the inside back cover)

Back Volumes

Back volumes of Weed Abstracts are available and there are discounts up to a maximum of 50% on orders of more than 10 volumes. Microform editions of back volumes are available at 80% of the price of paper editions.

Orders and enquiries concerning subscriptions and back volumes should be sent to:

CENTRAL SALES,
COMMONWEALTH AGRICULTURAL BUREAUX,
FARNHAM ROYAL, SLOUGH SL2 3BN, UK.

[Note: Prices are subject to change without notice]

Photocopies of most abstracted papers can be supplied by the Bureau at 30p per page, inclusive of delivery by air; minimum charge £3.00 per paper. An application and copyright declaration form is printed inside this issue. This form (which may be copied) should be signed and returned to the Bureau.

COMMONWEALTH AGRICULTURAL BUREAUX

The Commonwealth Agricultural Bureaux (CAB) is a co-operative venture established by Commonwealth Governments to provide information and other specialized services for scientists and professional workers in agriculture and related fields. The organization is controlled by an Executive Council composed of nominees of the various Commonwealth Governments, including one for the Dependent Territories. The following pages list the present members of the Executive Council, and Liaison Officers who form the primary link in the member country.

CAB has three main functions: a world agricultural information service, an identification service for entomology, mycology and helminthology, and a biocontrol service. CAB's information service is based on 46 abstract journals which, taken together, cover the whole of agricultural science. Contemporary world literature in many languages is scanned, and abstracts of significant items are included in the journals. Since 1973 all abstracts have been made available in machine-readable form for batch searching and online retrieval. The database contains approximately 1,600,000 records and is increasing by over 12,000 per month. Other publications include technical periodicals, annotated bibliographies, review articles and books. An information retrieval service ensures that individual needs are met, and also supplies photocopies of source papers.

The work of CAB is largely carried out through a number of Institutes and Bureaux, each dealing with a particular aspect of agricultural science. Enquiries on scientific aspects of CAB work should be sent to the Director of the appropriate Bureau. Other enquiries should be sent to the Executive Director at CAB Headquarters, or to Liaison Officers in member countries.

Languages

An initial capital denotes the language of the paper, an initial small letter the language of the summary.

Abstract Numeration A sequence of abstracts sharing a common bibliographical description, e.g. each of a series of items drawn from the annual report of a research station, is indicated by placing the serial numbers of all items other than the first (that containing the bibliographical details common to all) within square brackets.

Addresses Where there is more than one author to a paper, the address given refers only to the first and is normally the address where the work was carried out.

Attribution Where abstracts have been taken in their entirety from another source, acknowledgement is made to the source used. An author's original abstract is followed by the words 'From summary'. Where a modified version of an abstract is used, additionally the abstractor's initials are appended.

Use of 'a.i.', 'a.e.' etc. Unless otherwise stated, rates of application for growth-regulator herbicides such as 2,4-D, MCPA, fenoprop, dalapon, the benzoics, etc. are given as the acid equivalent. Rates for other herbicides such as the ureas, carbamates, triazines, etc. are given as the active ingredient. Rates for the bipyridyls refer to the cation, only.

COMMON CROP NAMES

Though both crop and weed species are indexed by their Latin name, commonly occurring crop species are cited in the abstracts by their vernacular name only. These common crop species are listed below with their botanical name as an aid to their identification in the index.

Alfalfa – *Medicago sativa*
Apple – *Malus*
Asparagus – *Asparagus officinalis*
Aubergine – *Solanum melongena*
Banana – *Musa sapientum*
Barley – *Hordeum vulgare*
Bean, cluster – *Cyamopsis tetragonoloba*
Bean, field/broad/horse – *Vicia faba*
Bean, French/snap – *Phaseolus vulgaris*
Bean, lima – *Phaseolus lunatus*
Bean, mung – *Vigna radiata*
Bean, scarlet runner – *Phaseolus coccineus*
Beet, fodder – *Beta vulgaris*
Beet, garden/red – *Beta vulgaris*
Beet, sugar – *Beta vulgaris*
Bent, common/colonial – *Agrostis tenuis*
Bent, creeping – *Agrostis stolonifera*
Bermuda grass – *Cynodon dactylon*
Birdsfoot trefoil – *Lotus corniculatus*
Blueberry – *Vaccinium*
Bluegrass, Kentucky – *Poa pratensis*
Brinjal – *Solanum melongena* var. *esculentum*
Brome, smooth – *Bromus inermis*
Brussels sprout – *Brassica oleracea* var. *gemmifera*
Cabbage – *Brassica oleracea* var. *capitata*
Carrot – *Daucus carota*
Cassava – *Manihot esculenta*
Celery – *Apium graveolens* var. *dulce*
Chickpea – *Cicer arietinum*
Chilli – *Capsicum annuum*
Clover – *Trifolium*
Clover, red – *Trifolium pratense*
Clover, subterranean – *Trifolium subterraneum*
Clover, white – *Trifolium repens*
Cocksfoot – *Dactylis glomerata*
Coconut – *Cocos nucifera*
Coffee – *Coffea*
Corn – *Zea mays*
Cotton – *Gossypium*
Cotton, American/upland – *Gossypium hirsutum*
Cowpea – *Vigna unguiculata*
Cucumber – *Cucumis sativus*
Currant, black – *Ribes nigrum*

COMMONWEALTH BUREAU OF PASTURES AND FIELD CROPS

Hurley, Maidenhead, Berks SL6 5LR, UK Tel. Littlewick Green (062882) 3457

The Commonwealth Bureau of Pastures and Field Crops is located at the Grassland Research Institute, Hurley, and is one of a group of 10 Bureaux and 4 Institutes which together form the Commonwealth Agricultural Bureaux, an organization financed and administered jointly by the various Commonwealth Governments and Dependent Territories. The Commonwealth Agricultural Bureaux produce over 150 000 records annually. These are published in 27 main and 17 specialist abstract journals and are also available in tape form and through various online hosts. The journals and their subscription rates are listed on the back cover.

The Commonwealth Bureau of Pastures and Field Crops prepares records for three monthly main journals, *Weed Abstracts, Field Crop Abstracts* and *Herbage Abstracts*. These journals cover world scientific literature on weeds, weed control and herbicides, annual field crops and on pastures, herbage crops and rangelands and provide a comprehensive guide to current scientific developments and a key to literature published in the past.

Scope of Weed Abstracts: Weeds and weed control in all types of crop and non-crop situations, biology of weeds, herbicide chemistry, property, analysis and toxicology, application of herbicides and other related aspects. A full listing of aspects dealt with is given in the content page.

The Bureau is prepared, on request, to undertake literature searches and to compile bibliographies on subjects within its scope.

CAB PUBLICATIONS AND SERVICES

Main Journals

The abstract journals form one part of a range of services in agricultural science provided by CAB, and will contain in 1984 a total of 180,000 abstracts and titles. With records derived from over 10,000 serials and many other publications, the journals constitute the only comprehensive coverage in English of the world literature on agriculture and related sciences. Readers' comments on the journals, their subject and literature coverage, are welcomed.

Specialist Journals

In response to demand, CAB has launched a new series of journals for the specialist research worker; some cover multidisciplinary topics, others deal with a single crop or product. Records for these journals are selected from the CAB database, and may be supplemented by relevant items from collaborating organizations.

Magnetic Tapes

Since 1973 (1972 in Animal Health) the journals have been produced by computer techniques. The consolidated database, now containing over 1,600,000 records and increasing by over 12,000 each month, is available on magnetic tape. Complete sets of tapes or parts corresponding to selected subjects may be leased. Prices and sample tapes on request.

Online Services

The CAB ABSTRACTS database is available online through DIALOG, ESA QUEST & DIMDI. Online access to CAB ABSTRACTS provides rapid and efficient access to the literature published since 1972-73.

CAB Search Services

CAB information scientists who compile the database will also carry out searches for customers. The basic charge is £37 plus £0.16 per abstract retrieved. The latest 15 references are available for £12.

A regular monthly SDI service can be supplied for £120 per year for up to 50 references per month.

Annotated Bibliographies

3000 Annotated Bibliographies already available provide information on specific topics.

Other Publications

A wide range of review articles, technical communications, reports and books are published. Write for our catalogue.

Document Delivery Service

Most original articles abstracted in CAB journals are available as photocopies. Order forms are printed in each journal or are available in bulk from CAB. Documents may also be ordered online via Lockheed Dialorder or ESA's Primordial.

Ordering Information

Subscriptions should be fully paid by 1st December for the volumes to be issued in the following year.

Many journals are available at special rates to subscribers in CAB member countries; details from CAB. Member countries are listed below.

A subscription provides entitlement to monthly (or quarterly) parts plus annual indexes. Rates include packing and mailing by air post to distant countries wherever the cost can be absorbed. Orders should be sent to:
